Venue: Lech am Arlberg, Sport- und Modehaus Strolz, Skiservice Strolz

Bootfitting Congress 2024

The first edition of the Bootfitting Congress was held in Salzburg in 2022. The idea behind it was to bring together the best boot fitters and ski boot development experts from Austria, Switzerland and Germany to discuss innovations, the latest trends and techniques and make valuable contacts within the boot fitting community.

The 2nd Bootfitting Congress will venture beyond previous borders and become more international - specialists in their field will present relevant theoretical content in English and German. Interactive workshops and a specially organised coffee area offer a balance to the theoretical mornings.

The speakers include well-known figures from the bootfitter scene such as Hubert Immler (Vandeer - Bootfitter & Ski Boot Developer), Peter Kummer (Leki Race Manager Alpine Ski), Thor Verdonk (Technical Product Director Rossignol Group), Jules Mills (Bootfitting Specialist & Founder of Lange Bootfitting University), William Kaplan (Owner of Performance Pedorthics Inc.).

The following countries are currently represented among the participants: Austria, Switzerland, Germany, France, USA, United Kingdom, Netherlands, Sweden, Norway, Poland, Denmark, Slovenia.

In order to set an example in terms of sustainability, efforts are currently being made to organise the event in accordance with the criteria of the Austrian Ecolabel for Green Meetings.
